Special Formulas and Nutritionals (Medical Foods)

- A medical documentation form must be completed to issue these products to all participants.
- Reasons such as “colic”, “spitting up”, or “formula intolerance” will not be accepted as a medical diagnosis.
- Some of these formulas/nutritionals include:
 - EleCare
 - Enfamil EnfaCare
 - Enfagrow Toddler Transitions, Toddler Transitions Gentlease and Toddler Transitions Soy
 - Neocate Infant with DHA/ARA
 - Nutramigen with Enflora LGG
 - PediaSure
 - Pregestimil
 - Similac Alimentum
- For a complete list of approved special formulas and nutritionals, use the ND WIC Formula Product Guide.
- If a prescribed special formula/nutritional is not listed in the ND WIC Formula Product Guide or in LegeNDS, contact the state office. The WIC Works Resource System's Formula Database (<https://wicworks.fns.usda.gov/wic-formula>) can also be used to find out if a special formula/nutritional is WIC-approved nationally. Then contact the state office to find out if it is approved by ND WIC.

Ready-to-Feed Formula

- Ready-to-feed formula can only be issued for the following reasons:
 - Unsanitary, contaminated, or restricted water supply or poor refrigeration
 - Homeless family with no access to refrigeration, clean water, etc.
 - Special formula ordered by a physician is available only as a ready-to-feed formula.
 - The infant's care provider may have difficulty diluting the liquid concentrate or powder formula.
- If a ready-to-feed formula is needed, please contact the State office for approval.
- Documentation of the approved reason must be entered in LegeNDS before issuance.
